APPLES FINE.

Apples are said to be almost entirely free from worms this year. This is the result of applied determination and concerted action on the part of the fruit growers of the country. Reckless war has been waged upon the codling moth, which goes to prove that by united action things can be done.—Farmington Enterprise.

THAT NEW BANK.

The new bank will soon be doing business. The building is nearly completed, the vault and safety deposit boxes in position and the finishing work is progressing as fast as the workmen can do it. Magdalena will soon be in possession of two first-class banking institutions which speak volumes for the prosperous condition of this community.—Magdalena News.

UNERRING INSTINCT.

A band of Indians led by a venerable chief camped on the mesa for some days gathering herbs. About a half a century ago the old man crossed the valley at the Gap and remembered this particular medicinal herb growing over a very limited area on the slope of the Tres Hermanas. With the instinct of his race he led the band to the identical spot where they gathered the treasure and moved on.—Columbus Courier.

A CLOSE CALL.

The east-bound passenger, No. 118, was delayed here several hours Monday morning on the account of the sudden break of a heavy cross bar holding up the tender. The engineer happened to notice it at once and shut down sliding the engine for several rods. The break was of such a nature that had the train gone on much farther at the speed it was then making it might have caused a very serious wreck. Indeed, —La Lande Leader.

RED RIVER LOOKS UP.

Carroll R. Dwyer, the popular proprietor of the Taos livery and feed stable, made a trip to Red River and Elizabethtown last week. He reports the Red River section going along at a rapid rate toward prosperity, a number of the mines being developed by their owners and good ore being extracted; also that the Pratt mill had an accident, part of it caving in on account of defective timbers, but that the owners were bending every energy to repair it, and it was only a matter of a few days before it would be running full blast.—Taos Recorder.

BEGUN TO SHIP.

Frank Hamm, Sr., was a guest in Questa Tuesday, arriving from the north. Mr. Hamm has all arrangements made to commence shipping ore from the Hamm Mining and Milling company's property on the Honda via Questa to Jaroso. This ore has been going via Servilleta at a cost of \$8 per ton for the wagon haul. The saving made via Questa justifies the change. This is good news, as Questa will be the division point both coming and going. Mr. Hamm left for the mines Wednesday. We were shown the latest assay returns and they run well, enough to cause considerable surprise.—Questa Gazette.

GOOD NEWS FOR DEMING.

It is stated on good authority that an offer of \$1,300,000, made by the Phelps-Dodge people for the Cheung mines at Tyrone, in the Burro mountains, has been accepted and the final papers transferring the property were made at a meeting held in Pittsburgh the 15th of this month. It is said, the Phelps-Dodge people will at once begin mining operations at both Tyrone and Leonard, and to facilitate transportation of ore will construct a railroad from Tyrone to Deming, there to connect with the El Paso and Southwestern, which is owned by the Phelps-Dodge syndicate.—Deming Graphic.

CARELESS SHOOTING.

While playing in the back yard of the Wells' residence yesterday afternoon about four o'clock, Jas. Wells, Jr., accidentally shot and painfully wounded Elliott Wigglesworth, son of Dr. Wigglesworth, of Ft. Defiance. Some of the older boys had been out hunting with a 22 calibre rifle and upon their return left it lying where the smaller boys could get it. The ball entered the body to the right of the stomach in front, and coming out at the back. It is not known yet just how seriously he was wounded but it is not thought that the wound will prove fatal. A telephone message was sent to Dr. Wigglesworth immediately after the accident and he is now in Gallup attending to his son.—McKinley County Republican.

CARELESS WORK.

The ore shipping business as practiced here is a queer proposition. The ore is in the ground, many feet from the surface. The owner has it broken loose by dynamite, loaded into a car, taken to the surface, dumped on the ore pile, loaded into a

wagon, hauled to the railroad, unloaded from the wagon, loaded on a car, shipped to the smelter, where it is handled several times, and makes money at it. However, if a chunk of the ore falls off the wagon, while on the road, or on the approach to the platform is allowed to stay, and becomes of no value at all, it only serves as a bump in the road for passing vehicles to go over. To an ordinary man it would seem that if it was worth as much work in the first place to get it on a wagon, it was surely worth the price it would cost to pick it up, but the miner is not an ordinary man, for he figures differently.—Lordsburg Liberal.

EARTHQUAKE HITS GALLUP.

Sunday afternoon shortly after two o'clock a distinct earthquake shock was felt in three successive waves at intervals of about one and two seconds, each shock lasting about two seconds. The first wave of the disturbance was severe enough to give the building of a less firm foundation a decided lurch, rattling doors and windows quite severely. This was immediately followed by a more severe shock which caused considerable alarm, shaking ornaments from their position on shelves and throwing other light things that had been placed about carelessly. A third shock less severe than the second followed. Many of the second floor occupants of the two story buildings became frightened and rushed to the streets. The occupants of adobe and brick buildings that were built on solid foundations were hardly aware that any unusual disturbance had occurred. The disturbance wave seemed to be traveling in a southwest, northeast to east direction. The shock was also distinctly felt at Holbrook and Winslow, Ariz.—Gallup Independent.

LISTEN TO DEMING.

If the most skeptical outsider, who reads these farm stories from week to week, could take a run out to our Little Vineyard tract today, he would be an owner of a 5 or 10 acre tract in less than 24 hours.

Here, crowded on ten acres, is as much produce as a back east farmer would put on 40 acres. Why? Because this is an intensive farming proposition. You don't wait for water, your crops are never at a standstill because of drought, one of our big wells will produce one and one-half million gallons in 24 hours, and we have three of them, doesn't look much like failure, does it?

Some of these small farms are now planted to fruit and nothing ever looked more promising. Acres upon acres of fine crops—maize, oats, alfalfa, kafir corn are growing beyond belief. And why not—perfect climatic conditions, rich alluvial soil, pure water and plenty of it, are bound to produce wonderful results. Very soon the last small farm in the Little Vineyards tract will be sold and then you'll wish that you had made your investigations earlier. Our tract of land is only a mile from town, giving your children the advantage of Deming's schools (the very best in the state).—Deming Graphic.

AFTER JACKIES.

"There are too many Jack rabbits," is the way Ed Homan, one of the oldest residents of the county put it and accordingly, he starts a Rabbit club with the subscription list as given below and the Jack rabbits are beginning to get scarce.

The plan is that every man, woman or child who desires to enter the contest pay a fee of \$2.00 and the one

A WEEK WITH A "PROTECTED" AMERICAN FAMILY SHOWS HOW BEAUTIFULLY OUR TARIFF PROTECTS FOREIGNERS

(BY BYRON W. HOLT.)
Chairman, Tariff Reform Committee of Reform Club.

There are about 22,000,000 households in the United States, all very thoroughly "protected" by the Payne-Aldrich bill. Nearly all manufactured articles are sold cheaper abroad than they are here in the United States. Here is a glimpse of the way this protection works, in the course of a week's experience in an American family.

MONDAY.
The family is waded up by an alarm clock made in New Haven, which is sold in America for 68 cents wholesale, but is sold abroad for 55 cents. It is protected by 40 per cent duty.

Mother uses a coffee mill to grind the coffee for breakfast. It cost the retailer, from whom she bought it, \$1.13, and of course cost her more than that. It is sold to the foreign dealer for 90 cents.

The coffee is made in an aluminum coffee pot which the American man-

No truth is more forcibly manifested in physical life than the old saying "like begets like." For just as the offspring of healthy ancestry are blessed with pure, rich blood insuring good health, so the children of blood-tainted parentage inherit a polluted circulation which fosters a chain of scrofulous troubles. The usual sign of a scrofulous inheritance are swollen glands about the neck, weak eyes, pale, waxy complexions, sores and ulcers and general poor health. These symptoms are most often manifested in early life, though sometimes maturity is reached before the trouble breaks out. Treatment should be commenced at the first indication of Scrofula for it may get beyond control if allowed to run unchecked. S. S. S. is the very best treatment for Scrofula. It renovates the circulation and drives out all scrofulous matter and deposits. S. S. S. goes to the bottom of the trouble and removes the cause and cures the disease. Then it supplies the weak, blood with healthful properties. S. S. S. is made entirely of roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and medical advice free.

absolutely safe remedy for young or old. Book on the blood and medical advice free.

There is still plenty of room for contestants and all those who feel lucky with a gun are requested to pay the entrance fee of \$2.00 to Mr. A. W. Skarda, at the First National bank and go to shooting. There are no regulations as to what gun you shoot, the idea is to get the cars and bring them in at the end of the contest to the Chamber of Commerce and get your money; providing you are the winner.

The contest is a free for all and a fair proposition and no one is barred, no matter how good a shot you are. Also, the contest will be the means of remedying the world has ever known. If riding part of Curry county of a

NAPOLEON'S IDEAL WOMAN.

The great Napoleon, in response to a question once asked by a lady, replied "My ideal woman is not the beautiful society belle or the butterfly of fashion, but the woman who reaches middle age in complete preservation of health, with steadfast children by her side."

Thousands of middle-aged American women today owe their health to Lydia E. Pinkham's Vegetable Compound, that famous remedy for female ills, which has carried more women safely through the natural changes of her life, than any other remedy the world has ever known. If you are ill, it will pay you to try it.

HERE'S MAN WHO GETS \$1,000 A DAY FOR DOCTORING A \$3,000,000 BABY

DR. EDWIN B. CRAGIN, WHO IS TAKING CARE OF LITTLE JOHN JACOB ASTOR, JR., AND HIS MOTHER, MADELINE FORCE ASTOR—SNAPSHOT SHOWS THE DOCTOR STEPPING INTO HIS AUTOMOBILE FROM THE ASTOR RESIDENCE ON FIFTH AVE., NEW YORK.

FOR SALE—Good team of young mounds horses for driving or riding. Santa Fe Hardware and Supply Co.

FOR RENT—In private family, to two or four people, two nice sunny rooms—one has private entrance. Next door to bath, electric lights, telephone. Address "L" care New Mexican.

Elegantly Furnished Rooms for Rent—Rooms elegantly furnished and having all modern conveniences, including electric light, steam heat and bath. In the First National Bank building. Apply to F. M. Jones.

TYPEWRITERS.
Cleaned, adjusted and repaired. New platens furnished. Ribbons and supplies. Typewriters sold, exchanged and rented. Standard makes handled. All repair work and typewriters guaranteed. Santa Fe Typewriter Exchange, Phone 237.

WANTED—100,000 people to drink the mineral, cool, clear water of the Aztec Spring. It can be procured by applying to Mr. Henry Knick, who furnishes same to all the leading saloons and drug stores in the city. Why drink muddy water from the hydrant or pipes when you can drink clear and beneficial water from the Aztec Spring.

CANDELARIO MARTINEZ, Proprietor

WANTED—A male teacher with state teaching qualifications, and who has some knowledge of manual training to teach at the New Mexico Reform School for a term of about 7 months and serve as guard the balance of year. Salary, \$70.00 monthly, without board. A twelve months' contract will be given to a satisfactory applicant. Correspond with A. C. Celler, Secy of N. M. R. S. Springer, N. M.

Is there a hustler in Santa Fe—a really steady man who speaks English and Spanish—one who will work conscientiously work eight hours a day—who doesn't want a detective at his heels—who will speak the truth—who will not prevaricate or deceive—who will not draw from his imagination to secure customers—or whose sole ambition is to make a hundred dollars in a day no matter how he gets it, or how he deceives. To be clean cut, tidy, dress as a gentleman, and he need not have patent leather shoes, for we want the man to shine at the proper end. Must not chew gum, or smoke during office hours. Some ladies can fill the bill better than a man.

The work is to visit every Public School throughout New Mexico, secure teachers as pupils, or those who want to become teachers, and to report where a Business College would be well supported. Where men and women, boys and girls, are hungry for education, who want to push a pencil for a living instead of a wheelbarrow. We want hundreds of these men and women throughout the U. S. A. We pay expenses anywhere and credit them with stock and expect their brains and behavior to warrant a success. One week's training at the Santa Fe Business College is sufficient.

Are you suitable? Show us your features and we can read your bumps and see your character in your face. WALTER NORTON, President.

Helping a Woman

Generally means helping an entire family. Her back aches so she can hardly drag around. Her nerves are on edge and she is nearly wild. Headache and Sleeplessness unfit her for the care of her family. Rheumatic Pains and Lumbago rack her body. But, let her take

Foley Kidney Pills
and all these ailments will disappear. She will soon recover her strength and healthy activity for **Foley Kidney Pills** are healing, curative, strengthening and tonic, a medicine for all Kidney, Bladder and Urinary Diseases that always cures. For sale by all druggists.

TO FOREIGNERS \$93
TO AMERICANS \$123

"PROTECTIVE" DUTY 1/5c per lb

Manufacturer sells in foreign lands for \$2.20, and at home for \$3.08.

Mother puts the washbowl on the tariff-taxed cook stove. A Peekskill, N. Y., manufacturer quotes \$15 as the foreign price for the stove because the government has decreed a tax of 45 per cent on cook stoves.

For her "Anchor Brand" wringer she is charged one-fifth more, the export price being \$31.65 a dozen and the domestic price \$38.

TUESDAY.
Tuesday is ironing day. Mother pays nearly a third more for her

TO FOREIGNERS \$1.04
TO AMERICANS \$1.50

"PROTECTIVE" DUTY 45%

ations, as is proved by the export prices quoted by Philadelphia manufacturers. The heavier the iron the greater the weight of protection.

The set of sadirons these honest Quaker City people offer for export at 93 cents they will sell to the "protected" Americans for \$1.23.

WEDNESDAY.

Wednesday is baking day. The meat chopper costs just double the export price, the slow and vegetable cutter and the potato shredder cost two-fifths more than they would sell for across the line in Canada, and pots and pans of aluminum come 50 per cent dearer. It is chiefly due to that 45 per cent duty.

Even the vanilla flavoring extract for the cornstarch pudding costs the American family a third more than for export to the foreign family.

THURSDAY.
The children's clothes have to be made. The domestic sewing machine would be just as handy if the American family could get it for the export price, \$18.62, instead of the \$30 or more they have to pay. Over \$9,000, 000 worth of American made sewing machines were sold abroad last year at these lower prices.

FRIDAY.
After school Johnny mows the lawn. If he uses a 14-inch "Eclipse" mower the family has been mulcted at least \$1.50 that would not have

TO FOREIGNERS \$2.64
TO AMERICANS \$3.17

"PROTECTIVE" DUTY 45%

his eye on the \$1.75 Camden mantel clock. What would he think if he knew it sold for export at \$1.20, or 45 per cent less? The duty is 40 per cent.

SUNDAY.
The family goes to the country. The hammock cost 10 per cent above the price asked of foreigners.

If they go into camp they pay 27 per cent above export price for folding camp beds and 30 per cent more for camp stools.

Then this head of an American household comes home and catches sight of himself in a mirror—which cost at wholesale \$8, against \$6.65, the price to foreign purchasers.
